

Physician Assistant

We are currently seeking a full-time physician assistant in our German private practice for applied regenerative medicine and stem cell therapies.

Your profile:

- A fully trained physician assistant with a master's degree in health sciences or similar
- Further education in the field of regenerative medicine, bone marrow harvest or liposuction of advantage
- Expertise in cellular therapies in a broader sense
- A friendly, sovereign and confident appearance with outstanding social skills
- Excellent oral and written command of the English language
- A low level of written and spoken German is advantageous but not a necessity
- Ideal candidate will be self-directed and motivated
- A permanent residence in Germany is required

Your Job:

- Physician assistant at ANOVA Institute for Regenerative Medicine
- Tissue harvest by means of liposuction procedures as well as bone marrow harvest to harness stem cell material for processing
- Application and monitoring of therapeutics via intravenous infusion

We offer:

- Permanent position as physician assistant in Germany
- Flexible work hours, no night shifts or weekend clinic duties
- Unique possibility to be part of our multidisciplinary team with exceptional team spirit and drive to progress and excellence

We are excited to receive your application together with your CV to hr@anova-irm.com
